# How to Make a Color Wheel

- Using a round object like a plate, lightly trace a circle onto your paper.

- Using a ruler, find the center of your circle.
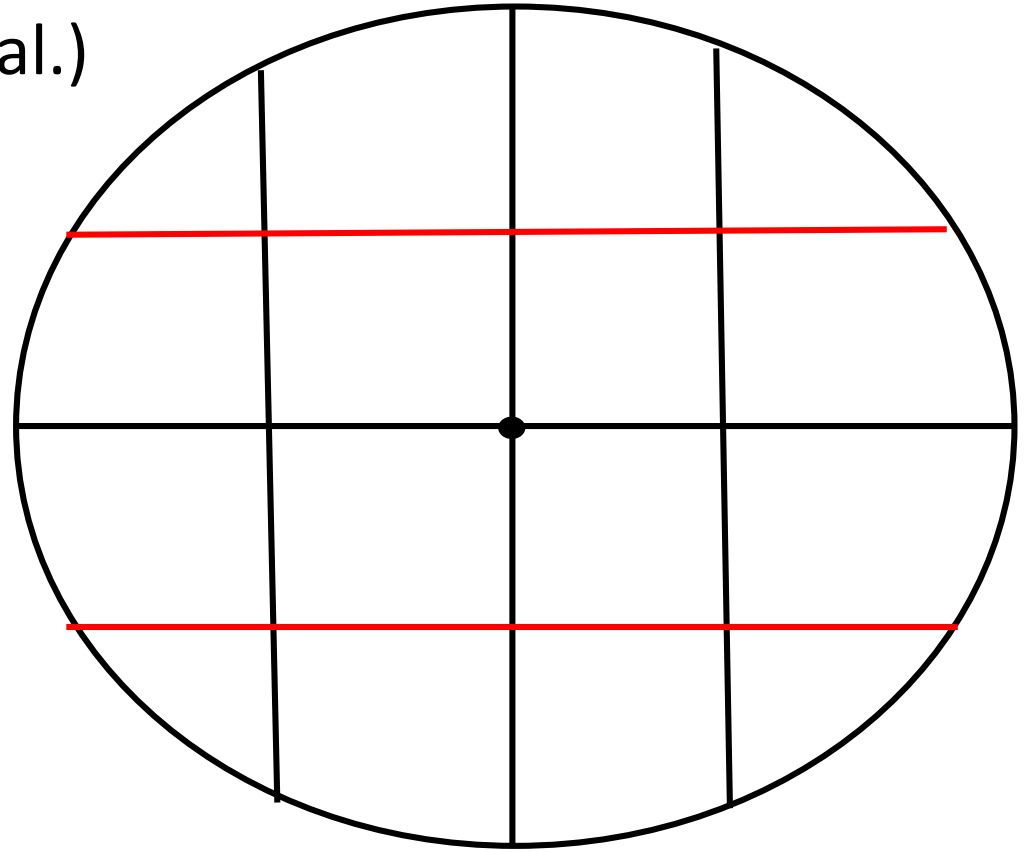

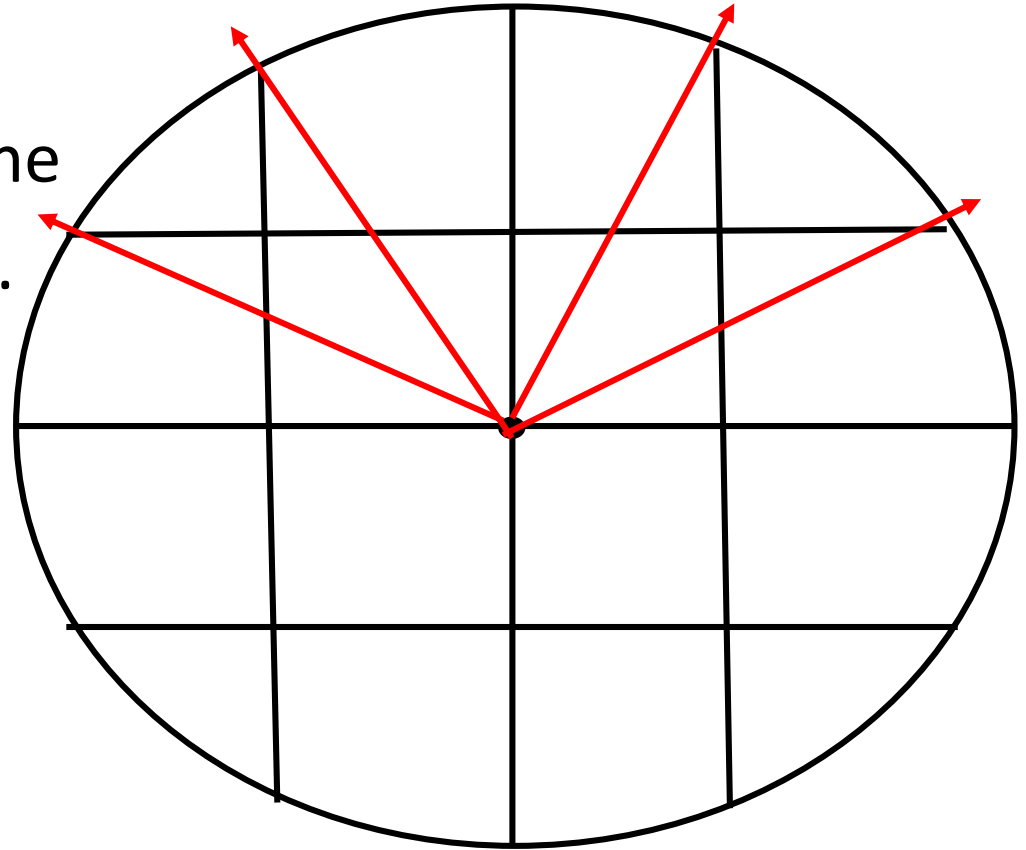

- Using a ruler, find the middle of your circle.
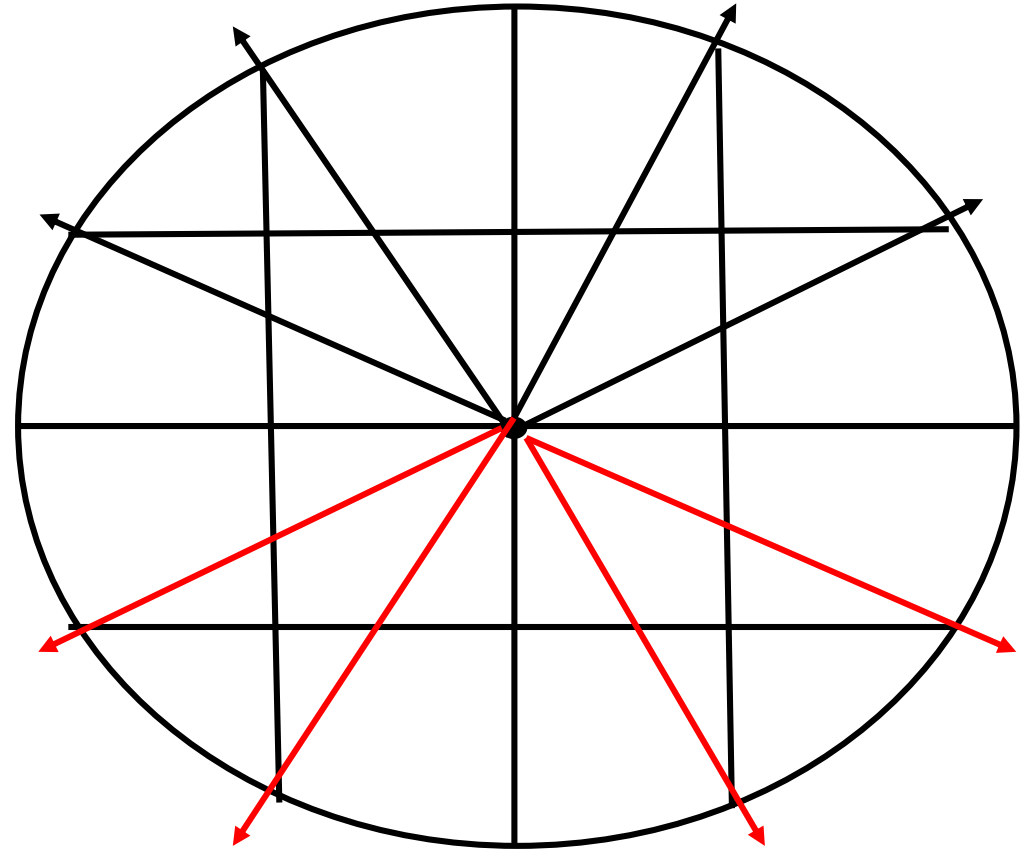

- Divide each section in half (vertical.)

• Divide each section in half (horizontal.)

- Using a ruler, draw a line from the center of the circle to where each line touches the outer edge of the circle.

- Repeat until you have 12 sections.

- Your completed color wheel should look like this!
